

COTSWOLD MECHANICAL LTD

CMW 3000 Series

**Mechanical
Handling,
Weighing and
Counting**

CMW 3000 Series Main Features

- Micro Processor Control System, with 100 Product Memory
- Precision Weighing System
- Latest Technology Control System
- Stainless Steel Construction
- Stainless Steel Contact Parts in Mirror Polished, Rigidised 304 or 316
- Automatic and Manual Systems
- Weight Range 1g to 250 g
- Speed: Up To 15 Weighing's per Minute
- Integral interface signals to control both upstream and downstream equipment

COTSWOLD MECHANICAL LTD

Unit 4, Chancel Close, Eastern Avenue, Gloucester, GL4 3SN

COTSWOLD MECHANICAL CMW 3000

COTSWOLD MECHANICAL LTD

CMW 3000 Series

**Mechanical
Handling,
Weighing and
Counting**

CMW3000	(Typical Machine)
Power Requirements	230 Vac 1 Phase 50 Hz 5 Amp 1100 w – 1 Kw – 1 kVA.
Air Consumption	Approximately 15 Litres per Minute @ 5 Bar (60 PSI)
Approximate Dimensions	L 1250mm W 375mm H 870mm
Weight	65 Kg

The majority of food contact parts of all weighing machines have been designed and built in Grade 304/316, Food Quality Stainless Steel. Their construction is such that all seam welds are continuous, crevice free & dressed clean to eliminate product retention. Gating contact parts are of FDA Approved, FQ Nitrile Rubber construction.

Furthermore, the machinery is designed & built wherever possible in accordance with:

The following transposed harmonised European standards

Machinery Directive 2006/42/EC and the protection requirements of the Electromagnetic Compatibility Directive 2004/108/EC

BS EN ISO 12100-1:2003 safety of machinery – basic concepts, general principles for design.

BS EN ISO 13857, safety of machinery – safety distances to prevent danger zones being reached by the upper limbs

EN349:1993+A1 2008 safety of machinery – minimum gaps to avoid crushing of parts of the body

EN13850:2005 + BS EN 60947-5-5 safety of machinery – emergency stop equipment, functional aspects – principles for design

BS EN 60204-1:2006 + A1 2009 safety of machinery – electrical equipment of machines – specification for general requirements

NEN-IEC-IEC 61000-6-1: 2001:Generic Emissions standard and Generic Immunity standard:

Industrial environments

In addition this machinery has been designed and manufactured in accordance with:

British Standard PD 5304:2005 Safety of Machinery

The Plastics Materials and Articles in contact with Food Regulations 2011
