

COTSWOLD MECHANICAL LTD

CMW 7000 Series

Mechanical
Handling,
Weighing and
Counting

CMW 7000 Series Main Features

- Micro Processor Control System, with 100 Product Memory
- Precision Weighing System
- Latest Technology Control System
- Stainless Steel Construction
- Stainless Steel Contact Parts in Mirror Polished, Rigidised 304 or 316
- Weigh direct in to pre-formed cartons or containers (Tare each container prior to filling)
- Automatic Container Indexing
- Integrated Product Settling Feature
- Weight Range 1 Kg to 50 kg
- Speed: Up To 12 Weighing's per Minute
- Integral interface signals to control both upstream and downstream equipment
- Optional In-Feed Level Control

COTSWOLD MECHANICAL LTD

Unit 4, Chancel Close, Eastern Avenue, Gloucester, GL4 3SN

COTSWOLD MECHANICAL CMW 7000

COTSWOLD MECHANICAL LTD

CMW 7000 Series

**Mechanical
Handling,
Weighing and
Counting**

CMW7000	(Typical Machine)
Power Requirements	230 Vac 1 Phase 50 Hz 20 Amp 4600 w – 5 Kw – 6 kVA.
Air Consumption	Approximately 60 Litres per Minute @ 5 Bar (60 PSI)
Approximate Dimensions	L 4000mm W 1600mm H 1750mm
Weight	500 Kg

The majority of food contact parts of all weighing machines have been designed and built in Grade 304/316, Food Quality Stainless Steel. Their construction is such that all seam welds are continuous, crevice free & dressed clean to eliminate product retention. Gating contact parts are of FDA Approved, FQ Nitrile Rubber construction.

Furthermore, the machinery is designed & built wherever possible in accordance with:
 The following transposed harmonised European standards
 Machinery Directive 2006/42/EC and the protection requirements of the Electromagnetic Compatibility Directive 2004/108/EC
 BS EN ISO 12100-1:2003 safety of machinery – basic concepts, general principles for design.
 BS EN ISO 13857, safety of machinery – safety distances to prevent danger zones being reached by the upper limbs
 EN349:1993+A1 2008 safety of machinery – minimum gaps to avoid crushing of parts of the body
 EN13850:2005 + BS EN 60947-5-5 safety of machinery – emergency stop equipment, functional aspects – principles for design
 BS EN 60204-1:2006 + A1 2009 safety of machinery – electrical equipment of machines – specification for general requirements
 NEN-IEC-IEC 61000-6-1: 2001:Generic Emissions standard and Generic Immunity standard:
 Industrial environments

In addition this machinery has been designed and manufactured in accordance with:
 British Standard PD 5304:2005 Safety of Machinery
 The Plastics Materials and Articles in contact with Food Regulations 2011
